

# BIDCO Update

"Promoting Economic Growth and Development"

Feb 2009

## PRESIDENT'S REPORT

Since our last newsletter we've been fortunate to have another business open in Belmond. The Savory Family Restaurant is highlighted in this month's issue and we welcome them to town.

It's nice to see the hospital expansion is still progressing even though the economic conditions are not favorable at this time. This project continues to be a promising project for Belmond as it will bring more traffic town and hopefully more jobs and potential new residents.

The BIDCO board continues to look for ways to promote Belmond and will keep you apprised of any developments.

Brian boasts that "the cooks" make everything and do not use anything that is ready made.
